Related subject: Scartho

I've lived in Scartho for most of the last 20 years in 3 different houses.

Scartho is an area which has changed over the last couple of decades with new housing estates at various points; largely on the edges near Shaw Drive, on Scartho Top, and imminently at Torbay Drive. It has new shops, more facilities, the community centre and doctors have been demolished and rebuilt. People say they are from and/or live in 'Scaffa', or some say 'Scarthoe'.

I think the boundaries of Scartho should actually be reviewed, and extended outwards to reflect this growth.

Scartho and Scartho Top sit nicely as in the same ward, but what about the streets near the Scartho Infants and Junior school and indeed on at least part of Scartho Road, maybe upto the hospital (Edge Ave etc) which are currently in Park Ward, despite containing a Scartho School!?
