## Comment text:

**Related subject:** Alston and Fellside area.

We are now in a boarder parish between Cumberland and Westmorland & Furness.

I wanted to have a Cumbria unitary authority in the last review and would welcome this to aid consistent behaviour in our area , reduce costs and delivering value for money. Our proportion of funding from the local rate payer just keeps growing up and up. Some of this due to government moving costs from national to local.

Alston and Fellside is a large enough area now.

Often people in the area feel they have little in common with Furness.

We used to be in Cumberland before the Cumbria change.

I would be interested to see spend by area per citizen published.

The people in the area feel they get roads / footpath, some grants and bins emptying from our unitary authority.

We are lucky to have to good councillors in our area.
