Related subject: Rubbish collection/recycling/parking/transport

Since the council change the rubbish collection has been erratic with blue bags not being left. I've had to call 3 times to get rubbish bags
Recycling facilities are limited with the tip only open for part of the week

Since the car park has closed in Appleby there is limited long term carpark but more traffic wardens than I have ever seen since moving here 6 years ago. It seems the council are taking advantage of less parking to make money from parking fines

The amount of council tax I pay is ridiculous and I don't feel I get much for my money. There is minimal public transport and it's not reliable, roads are in a dreadful state with roads randomly closed with little visible improvement
