## Comment text:

My view is reflected by many in the village of Meriden (you may check social media and school parent groups to understand this sentiment is widespread) and that is that the name Meriden belongs in the title of the Solihull ward in which we belong. We are one of the largest villages and surrounding areas within the ward and have a historical significance to our area and the UK. We do not wish to be under the name Arden, but wish to have Meriden appear in the ward name.

Thank you
