Related subject: Boundary between Olton and Silhill wards

I live on the south-west side of Warwick Road, in a corner pocket of Olton ward, between Wadleys Road and Grange Road. The side of Warwick Road opposite to us is in Silhill ward, and a few houses further into Solihull it is Silhill ward on both sides of Warwick Road. The boundary between the two wards makes an unnatural north-eastward move away from the railway line along Wadleys Road, leaving our houses on Warwick Road as a kind of adjunct to Olton ward. It would be much more logical for the boundary to continue along the railway line to Grange Road, so that we would then be in Silhill ward. We have much more in common with Silhill ward than with Olton ward.
