Related subject: Olton/Lyndon. Solihull

I am against the suggestion to move the Olton boundary. There are historical maps which show Solihull housing did not exist beyond the area you are about to transfer to what is now Lyndon. People have pride in living in Olton such as I did when I moved house from Lyndon to Olton. By moving this boundary you are moving me back to Lyndon. It also is taking population from a small ward to make a bigger one larger. I really dont understand why money and time is being spent to move a boundary that serves no real purpose other than tidying a map.
