Frankly Wirral Borough Council as it stands at the moment do not listen to their constituents, their employers. Time and time again they have made decisions and only use Have Your Say surveys as a lip service paper exercise to tick boxes. When the decision has already been pre determined. Morally corrupt and ethically bankrupt. And news now emerging that once again WBC are on the verge of bankruptcy. Too much money spent on vanity projects that NOBODY wanted.

Time to bring back local home rule councils that cater for the needs of their villages and towns and not from a council that is Birkenhead centric and looks towards Liverpool City Region.
