Related subject: Chelford

I understand that you need to change things but taking the closest parish "Ollerton with Marthall" out of the Chelford ward makes no sense.

Geographically parts of Chelford housing estates (namely Dixon Drive) are in Marthall not Chelford so you will have neighbours in different wards. What people consider to be Chelford local services such as the famous 2 "Chelford Car Boots" are in Marthall. Chelford's pub The Egerton Arms isn't in Chelford it's in Marthall. The nearest services to Marthall such as butchers, grocers, post office and until recently bank to our parish are in Chelford. This is reflected in the transport links. All busses through the parish go only to Knutsford and Chelford (not distant Mobberley) and our nearest train station is in Chelford.

The two communities are intertwined and to take us away from Chelford which is walking distance at the expense of parishes which are a 20-25 drive away shows a lack of consideration to the local needs of our parish.
