## Comment text:

**Related subject:** Ollerton

The proposed changes to the boundaries of the Parish Councils associated with Chelford & Ollerton is absolutely ridiculous. The main reason is that it appears to be minor change for no obvious benefit. Worse than that I despair that CEC can find the funds to waste undertaking such as totally pointless review. Please start to focus on things that bring some benefit and stop wasting time and money on pointless fiddling with the boundaries that most people don't even know exist. If I had any customer choice, I would not purchase council services from CEC. And doing things like this just make me more convinced you have no idea what you are doing.
