## Comment text:

**Related subject:** Knutsford

I fully support the commission's proposals. It would help improve accountability and democracy, particularly I like the proposed separate ward of Knutsford North / East. That area is to some extent demographically and geographically separate and people I know who live in that area say they feel disenfranchised by their vote being subsumed in the current three person ward system. One particularly party always wins across the whole of Knutsford, yet it may well be that the proposed new area if separated would have a more realistic opportunity to vote for someone else.
