Related subject: Tytherington ward

the idea of placing southern part of Tytherington in Mac central does not take into account the physical boundary namely The River Bollin. It was stated that the train line and River Bollin was a barrier between Tytherington and Bollinbrook so Bollinbrook will be moved out of the Tytherington ward. However, the River Bollin is at the southern boundary of Tytherington yet it's proposed to move the ward boundary upwards to incorporate this part into Macclesfield town centre. I advance this should be left in Tytherington as current. The northern part, namely, Springwood Estate is to be parcelled off to Bollington and Rainow ward despite the presence of a physical barrier the Silk Road and the fields between it and Bollington. It seems the proposed cutting off Tytherington ward is designed to reduce the representation. I therefore advance that it should remain within the Tytherington ward with the 2 councillors.
