Comment text:

Hello,

I have recently provided some comment on the proposed boundary changes to the Macclesfield wards, specifically the Tytherington ward. At the time the changes appeared fairly benign, however looking into this further I can see no sense in the proposed changes and I wish to register, as a constituent and council tax payer, my objection to the changes and departure to the status quo.

I see no reason for the proposed changes to ward apportionment that works perfectly well, in fact I can honestly say that I have never been so well served by my local councillors than I have been by David Edwardes, Emma Gilman and previously Lloyd Roberts.

Please Cheshire East, consider representations and balance the will of residents / bill payers with the drive for change. Please note that I have no vested interest in any political party nor the political aspirations of local councillors (beyond expecting to be well represented, which I absolutely consider myself to be).

I would be happy to elaborate on the comments above should the opportunity be available.

Yours faithfully,

[REDACTED]
