**Related subject:** Wychwood village & wychwood park

I have been a resident of Wychwood Village for 15 years & live in a great community of wychwood village & wychwood park what affects one side of the road affects the other. Our children go to school together, we share events, concerns and all other community matters. I'm horrified to see the proposal to split our community in two and feel very strongly that we should remain as en tact as one community. Please reconsider this boundary line
