## Comment text:

**Related subject:** Cheshire East

We bought our property on Wychwood Village based on the understanding that we benefit from the protection of a Section 106 Agreement that also includes Wychwood Park, which covers the amount of development that can take place in the area. It appears the proposals will result in this being invalidated, if the Village and Park are separated and I am concerned as to whether this is legally permissible and would expect a legally backed explanation of this is to be able to happen. Further I am concerned about the potential detrimental impact to property values and potential for undesired development in the area, which may compromise the character and safety for residents.
