## Comment text:

**Related subject:** Tytherington

I support the Labour Party's proposals as they are they are the most compelling. I do not feel that Bollinbrook should be in the Tytherington ward due to the distance they are apart because of the Bollin valley and it is closer socially to the town centre than a suburb such as Tytherington . I feel it should be in the Macclesfield ward of Brocken Cross and Upton. I also agree that the area including and south of Beech Farm Drive is an area with links closer to Macclesfield town centre than with Tytherington and should be moved into central ward. The boundary between Tytherington and Bollington should be maintained as is with some minor changes where some streets are divided between incongruously between Bollington and Tytherington. Bollington and Tytherington are separated by the silk bypass road and have no affinity geographically or socially and should remain separate wards. They are very different communities with Tytherington having closer ties to Macclesfield.
