I am deeply concerned about your proposals dividing the new estate of Whitehouse. I am disappointed that the Liberal Democrat proposal for this area was accepted uncritically; though they dismissed the idea that keeping the growing community together was of any importance, I just do not accept it is right to set back the conscious efforts to foster a coherent community in one of our newest estates. This has taken a considerable amount of effort from the existing Stony Stratford ward team, as well as the local community councillor, resident groups, and other organisations - to split an estate before those placemaking efforts can embed goes against the very principles of community development in Milton Keynes.

I ask you to keep Whitehouse together in the first instance. If you cannot do this, please at least choose a name reflective of the full extent of your new Loughton Ward, including these newly-included areas. I suspect the community responses will generate a suitable alternative, and I implore you to use these in your final draft - but, above all else, please reconsider this split at all.
