Related subject: World Heritage Status

I am strongly opposed to World Heritage status being granted to Glastonbury Abbey and Tor. We do not have the infrastructure for the increased Tourism and I am shocked that the consultation process has begun without prior knowledge to the Community. I understand £40,000 has been spent so far and it is likely to cost a minimum of £127,000 of taxpayers money. We were not asked before the money was spent. There was a survey but it was unclear and did not reach the majority of people in BA6. Only just over 6 percent responded. There has been a lack of accountability and transparency throughout proceedings. I gather from all I speak to and from a recent poll I conducted that the majority are against the scheme. I have set up a Facebook group and started a petition because I am strongly against the idea as I feel it would be detrimental to Glastonbury on so many levels. Furthermore I am arranging meetings and intend to speak at the next Council meeting in December. I sincerely believe this crazy and damaging idea must be stopped by the Community outcry at it. Thank-you.
