Related subject: Dulverton & Exmoor

The Dulverton & Exmoor Division comprises many small rural Parishes. The population needs around Councillor support tend to be particular to the remoteness of the area and the employment opportunities therein. It is important to a rural area that, where possible, the provision of Council services is tailored to the specific needs of the local population and the small businesses trying to survive and thrive. The Local Planning Authority for much of the existing Dulverton & Exmoor Division is the Exmoor National Park Authority. It would seem both logical and helpful if the Boundary Commission were able to align any new Division for this area of Somerset with the existing responsibilities of the Exmoor National Park Planning Authority.

Thank you.
