I feel that you are taking away local councils that understand our local issues and we will be lumped into a larger council with no understanding of what we face in our area. I live in a mobile home on Turnpike Residential park, we are retired and aged residents, if we get lumped in with a council who declares bankruptcy we will not be able to afford the raises in council tax, nor would I pay it, we have no services other than our bins, no street lights, no buses, no local police, but we do have extremely well paid councilors.
