Comment text:

Dear Boundary Reviewers

I am the clerk and represent Wootton Courtenay Parish Council which is situated in Exmoor on the western side of the County of Somerset. This parish is rural with one village and two hamlets in agricultural land and a large area of moorland. The parish is only situated 5 miles from Minehead and the coast. At present the parish is in the Ward of Dulverton & Exmoor and the councillors are strongly concerned that it should remain in this Ward as it is rural and the other parishes have similar rural identities. The main reason we would like to remain in this Ward is due to the planning as this all goes through the Exmoor National Park and not Somerset Council, as all the other parishes in that Ward.

Kind regards

Roz Griffin

Clerk - Wootton Courtenay Parish Council

Related subject: Wootton Courtenay and Exmoor

This parish of Wootton Courtenay is rural with one village and two hamlets in agricultural land and a large area of moorland. The parish is only situated 5 miles from Minehead and the coast. At present the parish is in the Ward of Porlock Vale and is also in the LCN area of Dulverton and Exmoor and the councillors are strongly concerned that it should remain in this Ward and LCN area as it is rural and the other parishes have similar rural identities. The main reason we would like to remain in this Ward is due to the planning as this all goes through the Exmoor National Park Authority and not Somerset Council, this is an important reason why we should not be lumped in with Minehead. If we have any issues on planning matters we are able to take these up with our councillors who are also on the ENPA and this link must be maintained. Exmoor covers a large geographical area which is also the LCN area and should retain two councillors that exist at present despite the low population, it all works well as it.
