The current band of councillors steal a wage as it is, without adding more burden to the already high council tax bill and increasingly high council debt

It took months to give Allerdale bin men a pay rise so they got payed the same as the other areas, yet you were keen to give yourselves multiple pay rises quick enough

I think it's funny though, asking our opinions on this, yet we never heard anything about the "Cumberland" merger other than it was happening, followed by the 1st of many council tax hikes. A merger that was supposed to "as we were informed" save the councils money, and allow access to more funding. What appears to have happened, (and I predicted as much, the same thing happened in Northumberland, where I'm from) all money now goes straight to Carlisle.

I honestly don't think I've ever seen, met or heard from the one who "represents" Seaton. I couldn't even tell you who it is, let alone how to contact them. Would not surprise me if they don't even live in the area. Probably hiding in the same place our so called MP is, with their head buried in the sand
