Related subject: Broughton & Moulsoe

I have previously stood to represent Broughton on the City Council.

I hope that the Commission will rule on their open question within the body of the report in favour of transferring Moulsoe village back to Olney, keeping only the MK: East area within the proposed Broughton & Moulsoe. If this is done, I hope the name of the ward does not revert back to Broughton, as the proposed ward is quite different from the current one and includes a substantial new area that current political debates suggest will look towards Newport Pagnell.

Could I suggest “Broughton & Elverby”, after the first estate to show green shoots in the MK: East area, or “Pineham”, which was the name of a ward covering the eastern flank from 1976 to 1996 and is an area in the middle of your proposed ward?

Better suggestions will likely be put forward, but I urge the commission not to name the ward simply “Broughton”, which was arguably never an appropriate name for a ward which already covers such a large area beyond that estate.
