Related subject: Stainton and Hemlington South

It would seem more logical to have Hemlington as a single ward with two councillors and with a boundary of Stainton Way. With Stainton, Thornton and the new housing development to the south of Stainton Way as a single ward with two councillors. These two areas are quite distinctive with a very clear boundary of Stainton way instead of side streets defining the boundary in an existing estate that just leads to confusion for members of the public when seeking help and support from their councillors.
