Related subject: Easterside

So beechwood and part of Easterside are being clumped with the Town centre in the New Boundaries??

So effectively turning these areas into second class citizen areas with barely any say nor input. As those within the Town area, mainly Pakistani/Indian/ethnic groups/Immigrant and worse of all Teesside University Will get the Larger Say.

That Alone should change the Beechwood/Easterside from this very proposal. Let the others and Teesside University dictate the Further collapse of the Town Centre without them extending that field to further away from the Town centre.

Teesside University has No interest but their own financial profit margin. Yet have Made such a Financial impact (for themselves) within the Town. Even as the Town collapses due to Bad decision after Bad Decision

I used to be on a Ward Community Council back in the 1990s in the town with the first home I bought. Had heated discussions how Indian/Pakistan people at that time being the largest ethnic group. Which back in the 1990s was Not true as it was Chinese ethnic groups.
