Related subject: New Bearwood ward (formerly Abbey ward)

I live in part of B67 which is earmarked to move from the old Abbey ward to Old Warley rather than going into the new Bearwood ward. Whilst I fully understand the reasons for the boundary changes, it seems strange that my street is not moving into the Bearwood with the rest of the other B67 postcodes. B67 has always been aligned to Bearwood rather than Warley / Oldbury. It would make more sense for the boundary of Bearwood ward to include the whole of the B67 area with Old Warley starting at the bottom of Pottery Road where the postcode area changes to B68. B68 is traditionally part of Oldbury whereas B67 has always been Smethwick so this proposed boundary change does not make sense. This is only a small area which is affected and shouldn't drastically change the overall numbers in the 2 wards affected. I would appreciate it if the boundary change could be looked at again in light of my recommendations.
