Related subject: Tipton

You are clearly not meeting the requirement of “ensuring that the recommendations reflect community identity”. (Numbers 4 and 87 in your Draft Proposals. Number 71 is particularly silly - Antonia Bance MP is claiming that Wednesbury town is being reunited when the proposed new ward would actually be appropriating Ocker Hill, which is part of Tipton! Also, Hill Top is surely part of West Bromwich town.

More consideration should be given to dividing the wards in a way that restores Tipton’s integrity as an individual town with its own identity. Too much of it is at present split off into wards of neighbouring towns.
