## Comment text:

Giving far to many moh bring trouble to normal streets .disgusting how much green space being decimate for houses we need nature as much as it needs us .do something about plastic grass before we end up with plastic trees .I think the council not strong enough on anti social behaviour. People not looking after the houses and gardens they are extremely lucky to have.all in all can't see how the council have a positive effect on my community. Wouldn't know they were there taking money for doing little
