Having reviewed the Proposed Boundary changes affecting our village Thornton le Beans, Northallerton, North Yorkshire we are dismayed to find we are being linked to the town of Thirsk which is 7 miles away.

If we are to be linked with any town we would have expected it to be Northallerton which is only 3 miles away and our local town for all our services.

We are a rural community and would prefer to remain associated with all the other rural villages in our area with an excellent local County Councillor representing our needs.

If we were to be linked with Thirsk we feel as a small village (130 citizens) our concerns would not be adequately represented
