I am very thankful that the boundary commission in its draft proposal has not divided up the distinct geographical area of Nidderdale. You will know from submissions from several Parish Councils that there is a strong feeling locally that the entity of Nidderdale, with Pateley Bridge as its major centre, is an important community area. This is reflected by all sorts of organisations which work throughout the dale, including Churches through Churches in the Dale, the community support organisation Nidd Plus, The Nidderdale Cricket league, the Nidderdale Strategic partnership, and many others.

My hope is that this will be repeated in the final version of the report.
