I am writing to support the recommendations of the Commission for Longtown Ward.

The proposals, for a ward with unchanged boundaries to current arrangements, represents a cohesive group of parishes all of which use Longtown as their local service centre. I would also like to support the name 'Longtown Ward'. The proposed ward would consist of seven parishes, but Longtown is by far the largest settlement and it would be unfair to pick out one other community in a ward name.

I have engaged with some of the Parish Councils in the ward where meetings have come up during the consultation period, and Parish Councillors were of the same view.
