Comment text:

Related subject: MILLOM WITHOUT WARD

Councillors are concerned that the Millom without ward is too large geographically. The ward councillor has the responsibility of 11 Parish Councils within his ward and is therefore unable to attend all meetings. The Parish Council feels disconnected from the Unitary Council because there is no regular link with the ward councillor. The ward should be split in 2 with a councillor for each. Because of its rural nature using the methodology of equal number of residents per councillor is flawed as it does not take into account the geographical elements of sporadic populations, which are not easily connected by transport links
