Related subject: The complete council setup.

I am astonished how this council was formed, stretching from the edge of the English/ Scottish Border to Millom at the area of Morecambe Bay. The area should have been Split across the county from East to West and Carlisle staying a City council. And now you saying you want more Councillors, what a joke. Get on with the job you want to do and claiming excessive expenses which should stop and save the authority money. No doubt the coouncil tax will be going up next year. The General public should have a vote not the councillors on council tax. Too much money wasted.
