Related subject: Brampton

Geographically this is a very large ward. I'm not sure residents of Scotby and Wetheral and Cumwhinton look to Brampton, since they are essentially commuter villages for Carlisle. Children in some of their primary schools don't attend Brampton for secondary education. I think residents of Scotby don't have GP services in Brampton. The river Eden perhaps provides a natural boundary, east for a Brampton ward, west for a Carlisle linked ward. There is a small section of this ward in Penrith and Solway CLP, which makes no sense, and Speckled Wood is far more closely aligned to Carlisle South than Brampton.
