**Related subject:** Carlisle

Good afternoon,

I write as resident of an area of Carlisle know as Windsor Park, which has been developed since the millennium. The development takes place in several stages, with additions of 150 – 200 houses being added every five years. Just recently the area of Kellbarrow Road has been completed.

The access for all this area is through Windsor Way to Kingston road and there is no road access at any other point or any other parish or council ward.

We always end up falling into two or more Council wards and never have been put into a single council ward, however this should be possible under the scope of your review as our numbers should allow for this. I would be grateful if you could give this further thought. There is no difference between us in terms of needs, services and even access, yet until now we seem to be unable to be accommodated as a single entity in terms of Council governance, which causes confusion and a lack of voice on local issues.

Thank you for giving this matter consideration.
