I feel with all the new developments that have taken place and are being built or planned at the moment, even within 12 months when this review comes into being, we need more than 53 wards, ~I agree to 1 councillor per ward as feel sharing wards would be detrimental to the electorate, the councillors struggle to work for us as it is, to increase the electorate in the ward would not work.

There has been so much new build large developments as well smaller 1-6 properties, houses turned into flats increasing number - look at Ledbury, they are still building and they have virtually build a new town! Leominster and Ross are the same and Hereford just keeps increasing. I therefore feel, we need to amend the wards
