Comment text:

This form is a total farce just like the ones we filled in about three weekly bin collections and the one where we said we dont want so many house to be built due to problems regarding school spaces and getting doctors appointments .I do not believe they will have any impact whatsoever .Everyone knows it ! And as for the bit about dont identify yourself? you have just asked for my name and will also have my email address for goodness sake I really hope that this is not the councils way of postponing the may elections but I suspect it probably is
