Comment text:

Related subject: Broughton

I strongly disagree with the exclusion of the Derwent Forest (North Ridge) new build development from the Great Broughton ward. The community has limited to no functional or geographical connections with Broughton Moor. The residents of Derwent Forest have developed strong community links with Great Broughton, including in local community groups at the village hall and school - both of which can be accessed via a footpath from the development. Derwent forest has no footpath access to Broughton Moor. I walk my children to Great Broughton school as it is good for their health, I also walk to the local corner shop, take my children to classes in the village hall, socialise with friends in Broughton, and identify as a resident of Broughton.
